Allowable Subject Matter

1. Claims 1-17, 19, 20, 22, 23, and 25-29 allowed.
2. The following is an examiner's statement of reasons for allowance: The cited prior art taken alone or in combination fails to teach the claimed invention set forth in claims 1-17, 19, 20, 22, 23, and 25-29. Specifically, the invention set forth in claims 1, 22, 23, 25 and 29 is directed to a method, system and computer program for evaluating a party and a list of counterparties using bilateral conjoint analysis to determine a match in preferences between the counterparty and party in connection with the procurement or delivery of the products or services in the context of at least one of a financial transaction and operation of an enterprise. The closest prior art, Puram et al, US 6,289,340 teaches a method of determining preferences from two parties and performing matching, but does not teach the use of conjoint analysis to reveal underlying preferences, nor does it teach the method used for purposes of a financial transaction or operation of an enterprise in connection with the procurement or delivery of products or services. Another reference used as prior art, Singh et al, teaches the use of conjoint analysis for matching in recruiting efforts, but only teaches a unilateral method of doing so and does not teach the conjoint analysis being used in the context of at least one financial transaction and operation of an enterprise in connection with the procurement or delivery of products or services.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
